MOTION

I move that the Clerk of Council be registered with the State Office of the Ohio Attorney General as the public records training designee representing Council Member Wendell Young for the remainder of the term ending December, 2011.

Statement

State House Bill 9 requires all elected officials to attend public records training offered by the Office of the Attorney General or to assign a designee to represent them. Each elected official is required to attend a three-hour records training session each term in which they are elected if a designee is not assigned.

Council Member Wendell Young
